

V35 Electric Handpiece System

High-Powered, Reliable, and Value-Priced 35,000 RPM Electric Handpiece System For Dental Laboratories

Features/Benefits

- **Reliable Gray Electric Handpiece**

New design and high-torque motor provide smooth operation and powerful performance with less operator fatigue. Larger bearings, extra-strong chucking mechanism, and proven design promote increased reliability.

- **Variable Speed Foot Control**

Variable speed foot control provides fully variable speed operation from 0 – 35,000 rpm and allows the system to excel at both higher speed *and* ultra-low speed (0 – 500 rpm) operation.

- **Dependable V35 Control Console**

Four multi-speed options on the control console (14k, 22k, 27k, 35k rpm) simplify console electronics, improve system reliability, and allow ideal speed selection for most cutting needs. Simplified design creates higher power transfer through the console and more torque to the handpiece. **Console Made in USA!**

Ordering Information

Item Number

• V35 Gray Electric Handpiece System, 120V AC (Complete with Handpiece, Console, Foot Control and Handpiece Rest)	37570
• V35 Gray Electric Handpiece System, 220V AC (Complete with Handpiece, Console, Foot Control and Handpiece Rest)	37575
• Gray Electric Handpiece Only	37590
• Variable Speed Foot Control for V35, 120V AC	37430
• Replacement Metal Chuck for Gray Handpiece	37590-14
• Replacement Carbon Brushes for Gray Handpiece, Set of 2	37590-37
